

DEDUCTIONS & CLAIMS MANAGEMENT

Reduce duplicate deductions
and speed up resolution time with
Oracle's Deduction Management
Solution

Tribus Point Advantage

- Six week implementation time frame: Reduce time and cost using the **Tribus Point Quick Start Toolset**.
- Streamline the deduction process and improve productivity for claims using an excel interface.
- Reduce cost per transaction and Days Deductions Outstanding (DDO) by mass settling large volumes of deductions.
- Prebuilt claim approval functions and notifications.
- Reduce the time to research by defaulting critical information.
- Prebuilt reports available for Discoverer, OBIEE and Endeca (i.e. settlement details and approval history, claims aging, enhanced AR statements, claims cycle time reporting).

Features

- Fully integrated with Oracle Financials
- Centralized repository for customer disputes, claims and deductions
- Rules based settlement
- Territory based claims assignment
- Workflow and task management automation
- Automatic thresholds to write off balances
- Interactive dashboard for operational analysis
- Enhanced visibility into claims across all departments
- Comprehensive audit trail
